

# Wedding Ring Tile

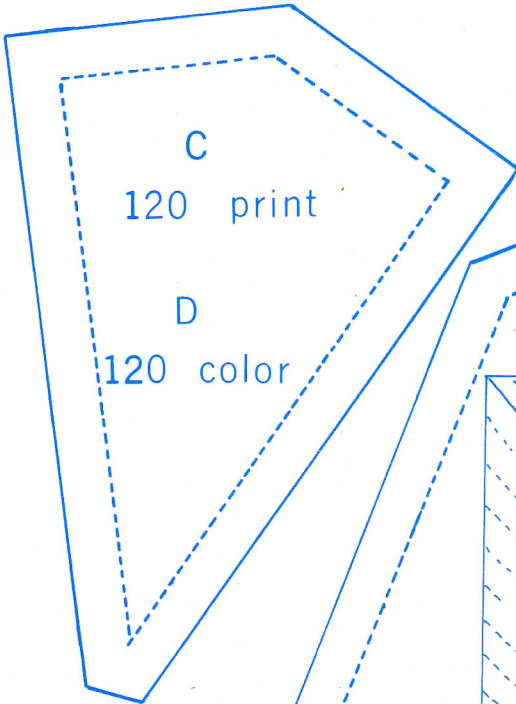

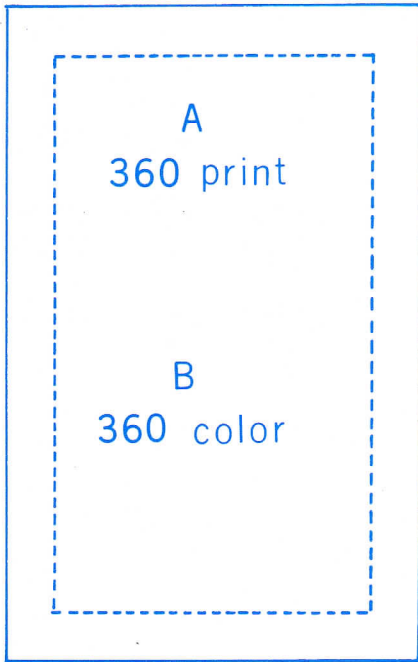

Lovely and outstanding, **Wedding Ring Tile** compares favorably with the traditional favorite, plain Wedding Ring. Each octagonal block measures about 18" across.

Thirty blocks set 5 across and 6 vertically make a quilt about 96"x 114" (including 3" border). Only  $\frac{1}{4}$  of E is given and this must be cut full size. Each group of 4 octagons are separated by an 8" square of white (see F in illustration). H piece in illustration is  $\frac{1}{2}$  of an 8 $\frac{1}{2}$ " square cut diagonally. The G piece is  $\frac{1}{4}$  of a 9" square cut diagonally in both directions for each corner of the quilt.

E, F, G, and H are quilted in diagonal 1" squares. Remainder is quilted about  $\frac{1}{4}$ " from each seam.

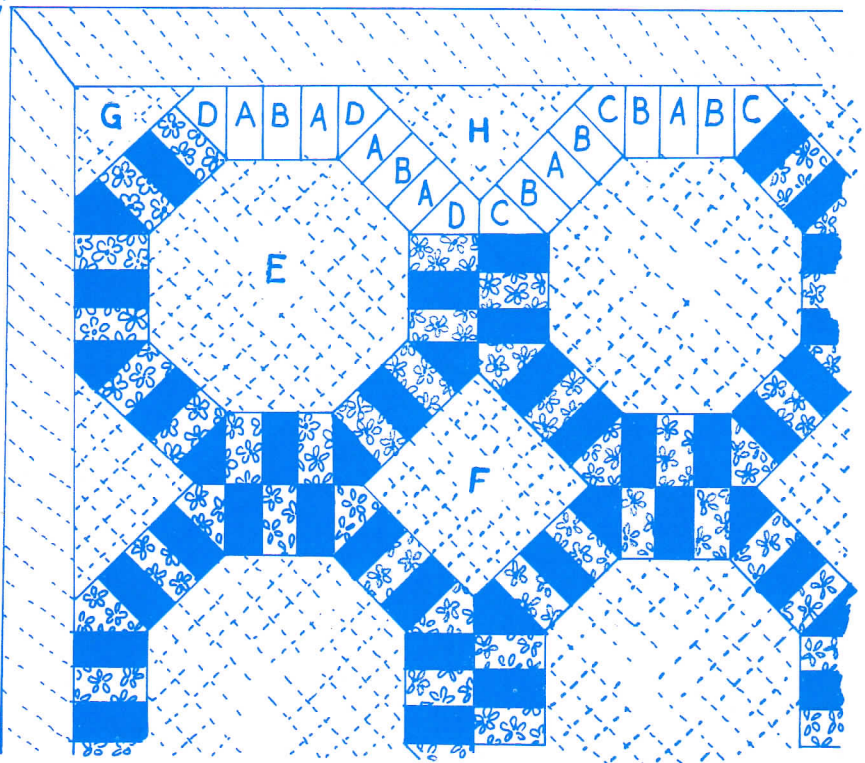

## Yardage requirements:

- 4 yards color
- 3 yards print
- 5 $\frac{1}{2}$  yards white

E  
30  
white

A border of 3" strips as illustrated may be added.
