

One Makes This Lace With a Sewing Needle

Armenian Needlepoint Stitches

ARMENIAN LOOP: To commence work, hold the end of thread down on material, insert the needle in material pointing away from you and under the thread, take thread nearest eye of the needle and place under and over needle, pull through and tighten knot. Insert needle in material about one-quarter of an inch from last stitch and repeat knot. Continue for desired length taking care to keep loops even. All succeeding rows of loops are worked in the loops of previous row.

Loops made on the width: At the end of thread, make a loop (ill. No. 1, chart No. 1), make a loop at side of loop just made (ill. No. 2), turn, continue making loops (ill. No. 3) for desired width. Work loops into side of loops (ill. No. 4) for required number of rows. To make scallops, follow ill. No. 5.

Cluster Stitch: Fasten thread in small loop, make a real long loop in next loop (ill. No. 1, chart No. 2), a long loop to top of loop just made (ill. No. 2), a long loop to base of loop (ill. No. 3). Place needle through at top under both loops and working thread (ill. No. 4) and make another loop, one long loop to base of loop, place needle under loops (ill. No. 5) and make a knot directly below other knots (ill. No. 6).

Edging No. 129

MATERIALS REQUIRED: The American Thread Company's "Star" Crochet Cotton, Article 10, or "Silkine" Crochet Cotton, Article 30, size 50 white.

This is worked on the width. Work 4 rows of 3 small loops, skip one loop at side and make a long loop in next loop, work 7 short loops or picots over long loop, * work 4 rows of 3 loops, one long loop into 3rd picot of scallop, work 7 picots over loop and repeat from * for desired length.

No. 129

No. 130

No. 131

Edging No. 131

MATERIALS REQUIRED: The American Thread Company's "Star" Crochet Cotton, Article 10, or "Silkine" Crochet Cotton, Article 30, size 60 white.

Work 4 rows of short loops.

5th row—Four short loops, * skip one loop, one long loop (about the size of 4 small loops) in next loop, 8 small loops, repeat from * to end of row.

6th row—Two short loops, * 3 cluster sts with $\frac{3}{8}$ in. thread between clusters in long loop, skip 2 short loops; 3 short loops in next four loops and repeat from * to end of row.

7th row—One short loop, * a short straight loop to first $\frac{3}{8}$ in. thread, short loop over same thread, one long loop over each cluster st. with short loop between; short straight loop to first short loop, 2 small loops and repeat from * to end of row.

8th row—One small loop, one very small loop in small loop, * 2 knots, 4 loops, 2 knots over next loop, knot in next small loop, repeat from *, twice, knot in next small loop and repeat from beginning to end of row.

Insertion No. 130

WORK two strips same as edging No. 129. To join, have scallops at left face down and at right face up. Make * a knot on second picot at left, a short loop in next picot. leave $\frac{1}{4}$ in. thread, knot in 5th picot at right, short loop in next picot, $\frac{1}{4}$ in. tread and repeat from * for entire length.
